CAREER OBJECTIVE

Full-Stack Developer with 1 year of hands-on experience building scalable platforms using **Golang, React, PostgreSQL, Redis**, and secure authentication systems. Proven track record in delivering production-grade e-commerce and learning portals featuring cloud deployment and SEO optimization. Seeking to leverage expertise in building secure, high-performance backends and responsive frontends within a growth-oriented engineering team.

EDUCATION QUALIFICATION

- Completed BTech (CSE) from Gandhi Institute for Technology, BBSR affiliated to Biju Patnaik University of Technology in the academic year 2025 with 78%.
- Completed intermediate from S.S.P.S COLLEGE SHAMBHUGANJ in the academic year 2020 with 63%.
- Completed Matriculation from DAA+2 HIGH SCHOOL SHAMBHUGANJ in the academic year 2018 with 69%.

TECHNICAL SKILLS

- **Core Languages:** Golang, Python, Java, JavaScript/TypeScript, Angular, React
- **Frameworks:** Gin, React, Express, Astro
- **Databases:** PostgreSQL, MongoDB, MySQL, Redis
- **Tools/Cloud:** Cloudflare R2, Vercel, Render, Swagger, n8n, Git/GitHub, Razorpay, Paypal

PROFESSIONAL EXPERIENCE

1. JUSTPOLYMERSOLUTIONS

Web Developer | Sep 2025 – Now

- Developed and launched Ethnic Treasures, a high-performance full-stack e-commerce platform using Golang (Gin), PostgreSQL, Redis, JWT-based authentication, and Cloudflare R2 for scalable media storage.
- Built a complete React + TypeScript admin dashboard for managing products, categories, banners, offers, and centralized media uploads.
- Developed an international Student Learning Portal (JPolymerSolutions) with OTP-based email/mobile verification, Redis TTL rate limiting, and advanced security features like IP/device-restricted login and role-based admin access.
- Deployed scalable production applications on Vercel & Render with SEO-optimized Astro storefront, Razorpay and Paypal payment integration, and Swagger API documentation.

2. MOBILOITTE TECHNOLOGY INDIA PVT.LTD

Software Engineer | Jan 2025 – Jun 2025

- Trained on Figma for UI/UX design and developed a full-stack job portal as a demo project using the MEAN stack.
- Contributed to backend development of a live real estate platform using Golang, with responsibilities in API development, documentation, and team collaboration.
- Assigned as a maintainer for an existing e-commerce web app (*Exobe*), handling client-reported bug fixes and feature refinements.

PROJECTS UNDERTAKEN

1. JUSTPOLYMERSOLUTIONS – Chem–PetChem Student LearningPortal [Visit](#)

Full-Stack Project | Nov 2025 – Present

- Developed a secure international student learning portal for chemical and polymer education with verified onboarding, live training access, and structured resources.
- Implemented OTP-based email/mobile authentication using Redis (TTL, rate limiting) with JWT login, role-based access, and IP/device-restricted security.
- Built a scalable full-stack system using React, Node.js, Express, PostgreSQL, documented APIs with Swagger, and deployed with Cloudflare R2 storage.

2. ETHNIC TREASURES – Handcrafted E-Commerce Platform [Visit](#)

Full-Stack Project | Sep 2025 – Nov 2025

- Developed and launched Ethnic Treasures, a high-performance e-commerce platform for handcrafted products with SEO-optimized, mobile-responsive storefront.
- Built a full product and content management system using a React + TypeScript admin dashboard, PostgreSQL integration, and Cloudflare R2 media handling.
- Implemented secure backend services with Golang (Gin), Redis, JWT authentication, Razorpay payment verification, and IP-based multi-currency pricing (INR/USD).

3. LANDS & HOMES – Real Estate Platform [Visit](#)

Mobiloitte Technologies Pvt. Ltd. | Mar 2025 – Jun 2025

- Live project developed for a real-world client to manage property listings, rentals, sales, and leases for lands, flats, buildings, and BHKs.
- Supported multi-role access including buyer, agent, owner, builder, and admin, with Albased property recommendations based on budget, demand, and location proximity.
- Contributed as a backend developer in a 3-member team. Implemented secure user authentication, developed APIs for lead and team management, built admin-level functionalities, and designed an n8n automation workflow for smart property search.
- Technologies Used: Golang, PostgreSQL, React.js & Next.js, Swagger, GitLab, n8n.

STRENGTHS

- Adaptive, Good Listener/Observer, Time management

HOBBIES

- Playing indoor games, Coding
